HARSH SONI

Data Analyst | SQL | Python | Power BI | Excel

Jabalpur, Madhya Pradesh | +91-6261593894 | harshnewa@gmail.com

Portfolio: datain.vercel.app | LinkedIn: linkedin.com/in/harsh-soni-data-analyst | GitHub: github.com/data-analyst-harsh-soni

PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student and Data Analyst with experience in SQL, Python, Power BI, Excel, data cleaning, validation, and reporting. Led a 25-person analytics team at The Entrepreneurship Network and analyzed enrollment, insurance, sales, and customer datasets. Build dashboards, reports, and analytical models to measure KPIs, identify trends, and support business analysis.

TECHNICAL SKILLS

Programming & Querying: Python, SQL

Data Analysis: Pandas, NumPy, Exploratory Data Analysis (EDA), Statistical Analysis, Data Cleaning, Data Validation, Data Quality, Trend Analysis, Time-Series Analysis, Predictive Modeling

Business Intelligence & Visualization: Power BI, DAX, Power Query, Excel, Tableau, Matplotlib, Seaborn, KPI Reporting, Dashboard Development

Databases, Cloud & Tools: MySQL, PostgreSQL, ETL Pipelines, Data Modeling, Data Warehousing, AWS, Amazon S3, Amazon EC2, AWS Glue, Amazon Athena, Amazon RDS, Git, GitHub, Jupyter Notebook, Streamlit

EXPERIENCE

Business Analyst
September 2026 – Present

The Entrepreneurship Network

Remote

- Reviewed business processes, operational workflows, and stakeholder requirements to document gaps and define process improvements.
- Conducted market and competitor analysis, including SWOT assessments, to compare business opportunities and operating conditions.
- Analyzed operational data in Excel and Google Sheets to prepare reports, dashboards, and financial models for management review.
- Reviewed workflow and performance metrics to quantify bottlenecks and recommend changes to improve process efficiency.

Tech Lead – Data Operations
July 2026 – September 2026

The Entrepreneurship Network

Remote

- Reduced average project completion time by **30%** by coordinating data collection, validation, and resource allocation across **15+ data interns and 10+ junior analysts**.
- Maintained **95% alignment with quarterly KPIs** by implementing data quality checks and standardized reporting across **8+ analytics projects**.
- Achieved **100% on-time delivery** of team initiatives by resolving **5+ recurring blockers weekly** through Agile sprint execution and cross-functional coordination.
- Vetted **100% of shortlisted analytics candidates** through **60+ technical screening interviews** assessing SQL, Python, and Power BI proficiency.

Data Analyst Intern
January 2026 – June 2026

The Entrepreneurship Network

Remote

- Improved reporting accuracy by **15%** by cleaning, validating, and collecting **100,000+ rows** of operational data with Python and SQL while automating **3 manual business processes**.
- Reduced reporting turnaround by **40%** by developing interactive Power BI and Tableau reports and predictive models with input-data quality checks.

SELECTED PROJECTS & ACHIEVEMENTS

National Enrollment Intelligence System — UIDAI Hackathon

- Developed a Power BI dashboard analyzing **35M+ Aadhaar records** and applied SQL window functions to identify a **12x regional enrollment disparity**.
- Performed time-series analysis to evaluate seasonal enrollment trends, uncovering an **8M-record registration spike**.

RiskPulse Insurance Intelligence Platform

- Engineered a Power BI risk-analysis dashboard using DAX, risk modeling, KPI analysis, data visualization, and drill-through analysis across **26,041+ policies**.
- Identified a **2.04 loss ratio** and **52.08% high-risk segment** through policy-level risk segmentation and pattern analysis.

Enterprise Sales Intelligence System

- Built a Business Intelligence solution for sales analytics, KPI tracking, and data visualization, consolidating business metrics into structured reports.
- Analyzed sales performance and business trends through structured reporting to compare KPIs and identify changes in performance.

DataBuzz UK Real Estate Intelligence Dashboard — Power BI Challenge Top Performer | Portfolio

- Built a **15+ page** Power BI analytics platform with **350+ DAX measures**, KPI calculations, drill-through analysis, interactive navigation, and executive AI insight summaries.
- Earned **Top Performer** recognition in DataBuzz's July 2026 Power BI Challenge, analyzing revenue, investment, risk, regional performance, and property trends.

Zomato Business SQL Analytics

- Queried Zomato business data in MySQL using CTEs, window functions, aggregations, and trend analysis across **8+ business dimensions**.
- Segmented customer behavior to identify high-value customers, peak order periods, churn patterns, and year-over-year cancellation trends.

EDUCATION

B.Tech (Bachelor of Technology) in Computer Science Engineering — Gyan Ganga Institute of Technology and Sciences, Jabalpur | August 2023 – May 2027

CGPA: 7.5/10 | **Relevant Coursework:** DBMS, Machine Learning, Data Structures, Statistics for Data Science, Operating Systems

CERTIFICATIONS

Data Analytics (Python, SQL, Power BI) — Cisco NetAcad, January 2026
AWS Academy Graduate: Machine Learning Foundations — Amazon Web Services, April 2026
Data Analysis with Python & Machine Learning — Microsoft Learn, November 2025
Advanced Excel — Accounts Expert Training Services, May 2026
Introduction to Data Science and Machine Learning — Cisco NetAcad, February 2026
Data Analysis using KQL — Microsoft Learn, October 2024
Build with AI — Google Developer Group, November 2024
